CodeCrafters Profile | Noida, UP, India

PROFESSIONAL SUMMARY

Senior Software Developer with **10+ years of comprehensive experience** in designing, building, and deploying scalable distributed backend systems, high-traffic web applications, native & cross-platform mobile apps, and intelligent AI/Agentic systems. Proven track record in orchestrating microservices architectures, IoT & EV charging standards (OCPP/OCPI), cloud-native infrastructures on AWS & GCP, and integrating LLMs/MCP server pipelines.

TECHNICAL SKILLS

Languages:

Java (8/17/21) Kotlin Swift TypeScript JavaScript Dart Go (Golang) Rust Python SQL

Backend & Services:

Spring Boot 3 Hibernate / JPA Node.js Express.js Kafka RabbitMQ RESTful & GraphQL APIs OCPP 1.6/2.0.1 & OCPI

Frontend & Web:

React.js Next.js 15 Tailwind CSS HTML5 & CSS3 Redux Toolkit Server Actions & SSE

Mobile Development:

Flutter (Dart) React Native (TS) Android Native (Java/Kotlin, Jetpack, MVVM) iOS Native (Swift/UIKit/SwiftUI) BLoC / GetX / Provider

Cloud & DevOps:

AWS (ECS Fargate, EC2, S3, Lambda, CloudFront, Route 53) GCP (Cloud Run, Vertex AI) Docker Kubernetes Terraform GitHub Actions Jenkins

AI / ML & Agents:

Model Context Protocol (MCP) Google Gemini OpenAI API Claude LangChain RAG Pipelines n8n Automations

Databases & Storage:

PostgreSQL MySQL MongoDB Redis SQLite & Room Firebase Firestore AWS S3

WORK EXPERIENCE

Senior Software & Full Stack Developer — Infoskills Technology Pvt Ltd, Noida

May 2022 – Present

- TelioEV:** Redesigned EV Charging mobile application in React Native (TS) and engineered scalable backend in Java Spring Boot supporting **OCPP & OCPI protocols** with dynamic tariffs and station discovery. Deployed on AWS ECS Fargate, S3, Route 53 & CloudFront.
- ElectricOne:** Engineered smart EV charging app in Flutter with Clean Architecture & BLoC, integrating real-time Firebase Firestore data, OCPP charger communication, and AWS S3 media uploads.
- Hyqoo:** Developed cross-platform Talent Marketplace in Flutter & Dart with GraphQL & REST APIs, Firebase auth & real-time messaging, and GetX/Provider state management.
- Enterprise MCP Server & Agentic Platforms:** Architected Model Context Protocol (MCP) server backends and automated multi-agent workflow pipelines via n8n and Docker, automating 70% of manual operations.
- Salon Management System:** Built full-scale salon booking management system using Java Spring Boot microservices, PostgreSQL, and React.js frontend on AWS EC2.

iOS App Developer (Contract) — Teliolabs Communication Pvt Ltd, Noida

Dec 2022 – Feb 2023

- Charge N'Go:** Developed native iOS application using Swift, MapKit, CoreLocation, and Firebase for real-time EV station mapping, routing, and integrated Stripe/Razorpay payment gateways.

Senior Software Developer — Fluper Ltd, Noida

Feb 2020 – Apr 2022

- Built backend microservices and web platforms using Node.js, Express, React.js, and MongoDB.
- Delivered cross-platform Flutter and Android mobile apps for enterprise clients across e-commerce and on-demand platforms (*Fuggu, RAL, DynDish, Payday, i12G, HOOT, CoachedIn, A2A, Clout*).

- Android Developer — Hire Indians Infotech Pvt Ltd, Noida

Aug 2019 – Jan 2020

 - Developed native Android apps (Java/Kotlin) following MVVM architecture with Room, LiveData, and Retrofit.
 - Integrated live location tracking with Google Maps API and secure payment gateways (Razorpay, Paytm).
 - Key apps: *StyleOAK (E-Commerce)*, *Doctor On Demand (Telehealth)*, *Quick Serve (Car Wash)*.
- Android Developer — Metro Infrasy's Pvt Ltd, Gurgaon

May 2016 – Jul 2019

 - Engineered transport and highway management applications (*Highway Saathi*, *Metro Parking*, *OBV AVS Alexa*).
 - Integrated AI voice assistants using API.ai & IBM Watson for voice-controlled navigation and toll recharge.
- Android Developer — Zebrogs Technologies, Noida

May 2015 – May 2016

 - Developed native Android e-commerce and sports events tracking applications using Android SDK.

KEY PROJECTS & LIVE DEPLOYMENTS

- TelioEV Platform (<https://telioev.com>)

React Native, Java Spring Boot, OCPP, AWS

 - End-to-end EV charging ecosystem handling charger discovery, live telemetry, and payment transactions.
- Charge N'Go iOS App (Apple App Store)

Swift, iOS SDK, MapKit, Firebase, Stripe

 - Production EV charging app on App Store featuring real-time station availability, routing, and remote start/stop.
- Highway Saathi App (Google Play Store)

Android (Java), IBM Watson, Google Maps, Retrofit

 - Smart travel app providing toll recharge, emergency SOS, and voice-assisted driving features.
- DocSetuAI & AI Business Suite (<https://docsetuai.vercel.app>)

Next.js 15, Gemini 3.6 Flash, Cloud Run, Firestore

 - Autonomous AI business operations and analytics platform with real-time multi-agent workflows.

EDUCATION & ACHIEVEMENTS

- Executive PG in Data Science — IIIT Bangalore

Mar 2022 – Apr 2024
- Master of Computer Applications (MCA) — NIET, Greater Noida

Jul 2013 – Jun 2015
- Bachelor of Computer Applications (BCA) — IP College, Bulandshahar

Jul 2010 – Jun 2013
- 50+ Apps Delivered:** Successfully deployed and scaled 50+ applications across Play Store, App Store, and Cloud.
 - HackforIndia (Mobile10X / Paytm):** Built AI-powered barcode food inspection scanner for product safety.
 - Architecture Modernization:** Led monolithic to microservices migrations, reducing latency by 60% and costs by 30%.
